

MG-268

Leather Polish (Solvent Based)

1. Introduction:

MG-268 leather polish mixture is specially developed for surface polishing treatments of natural leather such as cowhide, sheepskin, pigmented leather, snake leather and alligator leather. MG-268 increases shine with an excellent sense of touch, with abrasion resistance and bending resistance. MG-268 can be mixed with leather dyes into variety of colors.

MG-268 is a single liquid oil based treatment solution for simple application.

- * Noticeable high gloss and sense of touch
- * Excellent flexibility, freeze resistance
- * Applicable on white leather and gator/reptile leathers
- * Strong bending power, no stripping or cracking

2. Chemical-physical characteristics:

Appearance:	Yellowish liquid
Solidity (%):	9 +/- 0.5
Density (25°C):	0.87 +/- 0.005
Viscosity (CPS):	< 30

3. Available Colors: MG-268 (Clear)

4. Application procedure:

Simply apply MG-268 evenly throughout the leather area with a spray gun and heat dry between 40-50°C. For general application the amount of coating is recommended within the range of 20-50 g/m²

5. Storage:

The product may be stored in a place at a temperature below 40°C. Unopened packages have a life span of 5 year.

6. Package:

60L PE Drum (50 Kg)

Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience.
