

Wax Touch Spray (Aqua Based)

1. Introduction:

MG-728 is an aqua based anionic mixture with advanced synthetic wax and gloss wax aqueous solution.

This product is mainly developed for wax touch effect of nature leather such as kidskin, calf, full grain, burnished and pigmented leather. MG-728 generates a protective film with plump wax feel, high gloss and generates an excellent sense of touch. MG-728 can be mix with aqueous leather dyes into variety of colors.

- * Noticeable translucent effect and waxy feel
- * Strong bonding and bending resistance
- * Excellent sense of touch, elevates the value of the product
- * Can be mixed with aqueous leather dyes into variety of colors

2. Chemical-physical characteristics:

Appearance:	Brownish liquid
Solidity (%):	25 +/- 1
Density (25°C):	1 +/- .005
Viscosity (CPS):	<100
PH	8.9

3. Available Colors: MG-728 (Clear)

4. Application procedure:

Apply MG-728 evenly to leather surface with cotton cloth or spray gun and heat dry at 45°C -55°C for a more remarkable effect.

5. Storage:

The product may be stored in a place at a temperature below 40°C. Unopened packages have a life span of 5 year.

6. Package:

60L PE Drum (60 Kg)

Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
