

Leather Polishing (High Gloss Finish)

1. Introduction:

MG-738 is a high-gloss, aqua based mixture of anionic polymeric resin and aqueous polishing solution developed for polishing treatment of natural leather such as kidskin, calf, full grain, goat skin and pigmented leather.

MG-738 has excellent viscosity, bending resistance, high gloss, persistency and great coverage to large, over-sized pores or uneven leather surfaces. It can be mixed with aqua based leather dyes into various colors for different color need.

- * High Gloss and smooth touch
- * Durable, excellent fastness
- * Excellent cold and bending resistance, non-cracking, non-abrasion

2. Chemical-physical characteristics:

Appearance:	Ivory Liquid.
Solidity (%):	35 +/- 1
Density (Kg/m ³):	1.06 +/- 0.005
Iconicity:	Anionic

3. Available Colors:

(MG-73800) Clear, (MG-73810) Black

4. Application procedure:

Once the leather surface is cleaned, simply spray MG-738 evenly throughout the leather area with a spray gun and heat dry. (Hand finish - use sponge and give thin even coat)

If higher gloss is desired, finish with MG-302 (Fine Wax) on wool wheel.

5. Storage:

The product may be stored with its container tightly closed in a well-ventilated place at a temperature below 40°C. Sealed containers have a service life of 5 year.

6. Package: 60L PE Drum (60 Kg)

Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
